THE NAILERS' SCALE.

SOME INEXPLICABLE FEATURES

Of the Fallure of the two Conference Com mittees to Agree-Secretary Martin in the City-Those who took in Yesterday's Meeting here are Beticent.

A largely attended meeting of the nailers of this city and vicinity was held yesterday forenoon in the Reilly Block. Secretary William Martin, of the Amalgamated Association, was present, having come down from Pittsburgh the night efore with Mr. A. D. Work. It was at his request that the meeting was called. What was done could not be ascertained, the nailers saying that Mr. Martin had ledged them to secrecy as to the propositions considered or the action taken.

Mr. Martin came down to Wheeling ast Saturday, having in his possession a paper which is understood to have been an agreement signed by Pittsburgh manufacturers to sign the Mingo scale on cerufacturers to sign the Mingo scale on certain conditions. These conditions the nailers claim have been fulfilled, but so far the scale remains unsigned. All the confident expressions of belief that the confidence.

Yesterday's Pittsburgh Post says con-cerning the conference on Wednesday: One of the manufacturers present fur-nished a Post reporter with the proceed-ings in detail last evening. Indeging from his statement of the case all is not har-mony among the factory owners. One of the latter presented a scale which would have been in all respects satisfactory to the workmen, and is in fact an improve-ment on what is known as the Mingo scole. He was summarily sat down upon by the other manufacturers, who declared that they would accept none other than by the other manufacturers, who declared that they would accept none other than the 17 centscale, President Weihe worked hard to get the Mingo compromise scale adopted, but the employers, except in the instance noted, fought its tubornly. other conference will be held to-day. It is preity certain that a compromise of some kind will be effected. The nailers have now been idle for over a year and are growing tried of doing nothing.

Last evening's Pittsburgh Chronicle-Telegraph says:

The conference was so unsatisfactory to the representatives of both the Amalganiated Association and the nail manufacturers that after yesterday afternoon's session the committee adjourned without taking any action in regard to the scale or taking any action in regard to the scale o taking any action in regard to the scale or arranging for another meeting. It was learned this morning that the manufacturers' sent out a telegram last night stating that "the committee had adjourned without taking any action." From a reliable source it was learned this morning that all considerations of the Mingo scale were at an end. Whether both sides will reconsider the matter and call another receiver the centicular refused to state. meeting the gentleman refused to state out he said: "I don't think there will be but he said: "I don't think there will be any further conference, but whether the scale is signed before July I remains to be seen. If it is not, there will be trouble. However, don't be too sure that there will be a strike, as it may be signed before next Wednesday. It was reliably ascertained that if the scale is not signed by next Wednesday all of the Amalgamated Association members who are employed atmills where there are nail departments, will go out on a strike. It is estimated that should these now units in a strike it would throw nearly 5,000 men out of employment in this city alone, and that there would be a great many others in other cities where the nail milis are not working on the Mingo scale.
